# MEDIA WIZARD

The Leading Concept in Network Connectivity

## Introduction

WizLaN

**WizLAN's Media Wizard** product line provides a range of scalable connectivity, distribution and media conversion solutions in a single manageable/unmanageable chassis.

Located between the enterprise devices and cabling system, this multifunctional platform supports a large variety of plug-in manageable modules, designed to address the needs of high-density, rapid growth networks.

Each Media Wizard chassis can accommodate any combination of modules supporting:

- Diverse functionalities such as media conversion, switching, redundancy and distance extension solutions, CWDM, multiplexing, and more
- Multiple LAN protocols such as 10/100/1000M Ethernet, 155/622M ATM, ESCON, Fiber Channel, E1/T1, AS/400 and more
- Various copper and fiber media (SM, MM, SF, CWDM, etc.)

**Chassis** are available in various sizes, accommodating from one to sixteen Media Wizard modules, where the 4-slot and 16-slot (Telco grade) chassis can be equipped with redundant, hot-swappable power supplies.

- 16-slot (+ management slot) chassis, Telco grade robustness, slide-in power supplies
- 4-slot chassis (one of which can be used for the management module)
- 2-slot chassis (one of which can be used for the management module)
- 1-slot chassis with or without internal management support

Chassis and per module enhanced SNMP management support provides monitoring and control functionality from virtually any SNMP management platform.

## **Advantages of Media Wizard Product Line**

- Extends the functionality of legacy and network devices by providing the necessary conversions, distribution and connectivity to interface with mixed cabling environments
- Future-safe scalable architecture, various chassis sizes and plug-in modules optimize immediate investments and effectively meet growing needs
- Optimal network organizer and space saver integrates many stand-alone devices into single modular connectivity centers
- Compact size, high-density (3U height 16-slot) chassis supports diverse functionalities and significantly reduces required installation space
- Telco grade system robustness provided by independent module operation, redundant power supply options (load sharing), and enhanced chassis monitoring and management capabilities
- Remote power management including power-supply identification and power consumption
- Remote chassis hardware monitoring including temperature, voltage and fan RPM
- Remote setup, configuration, and monitoring of installed modules
- Hot-swappable, chassis interchangeable slide-in modules and power supplies simplify installation, operation and maintenance
- Ohassis can be equipped to operate from a range of AC and DC power sources
- One stop connectivity shop, centralized management and maintenance

## Media Wizard modular chassis

#### WIZ-2016A

Description:	16 slots + 1 MNG slot, Telco grade, plug-in power supply, redundant
Backplane:	power supply (option) Sapporting 15 discrete 200Mbps channels as well as serial and parallel managment busses and in-band mamnagment connnection
LED Indicators: Dimensions: Input Voltage:	Power Supply Main/Secondary, Fan1/Fan2 H: 3U 13.3cm (5.25") x W: 48.3cm (19.0") x D: 33cm (11.8") AC: 90-130VAC/180-264VAC (auto-select), 47-440Hz
Max Input Power: Consumption:	DC: 36-72 VDC (-48V) WIZ-2016A (regular PS): 215W WIZ-2016A/HP (high PS): 280W WIZ-2016A/DC (DC PS): 200W
DC Power Output:	WIZ-2016A (regular PS):   24PU     WIZ-2016A/HP (high PS):   40PU     WIZ-2016A/DC (DC PS):   30PU
Safety and Emission Environment:	CE, FCC, Part 15, EN60950 Operating: 0 to 45°C (32 to 113°F), Storage: -40 to 85°C (-40 to 185°F), Humidity: 10% to 90% non-condensing

MEDIA WIZARD - YOUR BEST CHOICE FOR NETWORK CONNECTIVITY
